

Mill City Music 2007 Catalog

WHOLESALE PRICE LIST

Mill City Music's 2007 Catalog includes our best-selling music and the new titles we anticipate will do well this year. This wholesale price index includes many titles in addition to those that are shown in the main catalog. Use these titles to provide a broader selection and more depth for your customer.

We also want to emphasize the convenience of using our website, www.millcitymusic.com. The site is updated frequently, showing new items that we add to our inventory. You will be able to see the album covers and the song titles on every album. Please check this out. In 2007 it will be possible for you to order wholesale from the website. We also will be adding sound clips so you can sample the music.

Please Note: Books and Sheet Music are non-returnable. Also, if you are looking for something that is not listed, let us know. If we can, we will special order items for you. Special order items are non-returnable.

Our retail catalog shows suggested retail prices. The prices extended to our wholesale customers are listed in this wholesale price index.

DEFECTIVES

Because of the technology and manufacturing process, CDs are almost never defective. If you think you do have defective product here's what to do:

1. **CDs that skip:** there are 3 things that will cause a CD to skip: finger prints and smudges, scratches, or dust. These are usually caused by mishandling of the CD. For fingerprints and smudges, take a non-abrasive cloth (velvet, cotton or eye glass cloth) and carefully clean it from the center hole of the CD to the sides. **Wiping in a circular motion will damage the CD.** As for scratches, there is nothing that can be done to fix 'em, so handle your CDs with care! We cannot give credit for damaged CDs.
2. Returns of defective product are handled the same as other returns, please refer to **RETURNS** section.

IN-STORE PLAY DEMOS

Limit of 1 (one) demo per title, per store location.

Extra demos must be purchased.

You may request a CD demo for any title the *first time you order 3 or more copies*. **We are charged for some demos**, in which case we will pass that cost along to you. If you purchase a demo from us it is your property and cannot be returned for credit. **Only one in-store play demo is allowed per store location, and all free demos remain the property of Mill City Music, and MUST NEVER BE SOLD.**

Demos are tools to help you promote and sell the music you have in stock. If you don't have the product in stock to sell, then please don't play the demo until you re-order/re-stock. **Playing music not available for sale could cause your store serious problems from agents of the publishing industry.** Please refer to the "Notice Regarding Licensing to Play and Sell Music" on page 3.

SPECIAL ORDERS

We are more than happy to special order a title for you, turn around time is usually 1-2 weeks and product is sold to you as a **one way sale/non-returnable**.

PRICING

Prices listed in the catalog are **SUGGESTED RETAIL PRICES** and are subject to change during the life of this catalog. Wholesale prices are listed in this index.

Don't over-price your music

When pricing single disc CDs for resale in your store(s), it is best to keep the retail price at \$19.98 or less.

Do not "keystone" CD prices!

Remember, the key to successful music sales is *turnover*.

NOTICE REGARDING LICENSING TO PLAY AND SELL MUSIC

The copyright law specifically exempts vendors who play music for the purpose of selling the music. The current law regarding this reads as follows:

...the following are not infringement of copyright: (7) performance of a non-dramatic musical work by a vending establishment open to the public at large without any direct or indirect admission charge, where the sole purpose of the performance is to promote the retail sales of copies or phono records of the work, and the performance is not transmitted beyond the place where the establishment is located and is within the immediate area where the sales is occurring.

17 U.S.C. 110, subd. 7 COPYRIGHT LAW (emphasis added).

There are two organizations (BMI & ASCAP) that collect fees on behalf of composers of copyrighted music from those who use copyrighted music. BMI and ASCAP exempt record stores but are trying to collect a licensing fee from some non-record stores that play and sell music. Since the playing and selling of music is a major sideline of our retail customers, we contend that the playing of this music is for the "sole purpose" of selling the music and is therefore exempt from any requirement to buy a license.

It should be pointed out that the composer is paid per composition per unit sold. Therefore, playing and selling the music of any composer is very directly benefiting that composer.
