Welcome to Mill City Music, the home of your favorite music. This year we are celebrating the 150th anniversary of Minnesota statehood. We also will be hosting the Republican National Convention in St Paul. Minnesota, a leader in farming, lumbering, milling and medical research is also center for the printing industry and a major producer of iron ore. We are located in the largest city, Minneapolis which joins the state capital, St Paul and other cities to form the greater metropolitan area. The state has a thriving arts community which compliments the scientific community anchored by the University of Minnesota.

Mill City Music continues to adapt to the Gift Music market by bringing you new Artists and very familiar artists. This past year we were able to bring you Josh Groban's new CD, *Noel* as soon as it was made available. Josh appeared on many television shows to promote the CD which made it a very desirable item to have in the gift stores.

Our Catalog is changing and adapting to the Postal Service changes and to the needs of our customers. This year the catalog body contains the best selling CDs and the new releases since last year. Our index shows all of our CDs listed alphabetically by artist with catalog numbers and prices. We also grouped the books, sheet music and DVDs at the end of the index so you can find them easily.

Remember that you can place your order with us any time of the day or night when you fax it to 612-722-2079 or email it to sales@millcitymusic.com. And if you send us your email, we can keep you posted regarding new product and artist performances.

NOTICE REGARDING LICENSING TO PLAY AND SELL MUSIC

The copyright law specifically exempts vendors who play music for the purpose of selling the music. The current law regarding this reads as follows:

**...the following are not infringement of copyright:
(7) performance of a non-dramatic musical work by a vending establishment open to the public at large without any direct or indirect admission charge, where the sole purpose of the performance is to promote the retail sales of copies or phono records of the work, and the performance is not transmitted beyond the place where the establishment is located and is within the immediate area where the sales is occurring.**

17 U.S.C. 110, subd. 7 COPYRIGHT LAW (emphasis added).

There are two organizations (BMI & ASCAP) that collect fees on behalf of composers of copyrighted music from those who use copyrighted music. BMI and ASCAP exempt record stores but are trying to collect a licensing fee from some non-record stores that play and sell music. Since the playing and selling of music is a major sideline of our retail customers, we contend that the playing of this music is for the "sole purpose" of selling the music and is therefore exempt from any requirement to buy a license.

It should be pointed out that the composer is paid per composition per unit sold. Therefore, playing and selling the music of any composer is very directly benefiting that composer.

MCM can help. Ask John to review your purchases for frequency and volume in order to certify that you are a legitimate music dealer.

CALL US WITH YOUR QUESTIONS.

If you are contacted by a representative of either of these organizations you should: (1) remain polite and professional regardless of their demeanor; (2) tell them you believe you are in compliance with the copyright law; and (3) tell them they should make all future contact by mail if their company wishes to discuss the matter in more detail. End of discussion. **You should then make notes regarding the encounter and immediately contact your legal counsel and John at Mill City Music (800/426-5783).**

The *Mill City* is the name given to Minneapolis referring to the flour mills that thrived on the banks of the Mississippi River near St. Anthony Falls. Twenty five percent of all the flour milled in the world was milled here in the 19th Century.

The flour was stored in concrete grain elevators, invented here at St Louis Park by Peavey in 1899. These structures are as important to our landscape, history and culture, not only as a state but also for our whole nation, as castles are to England, the Coliseum to Rome, the Great Wall to China, and the Pyramids to Egypt.

Through interviews, photos and a 17-track compilation CD, **West Bank Boogie** traces the rich music scene in one Minneapolis neighborhood from the 1950s through today — a scene that played host to the young Bob Dylan, influenced the early Beatles and nurtured a host of musicians with followings throughout the Midwest.

DEFECTIVES

CDs are almost never defective. However, if you think you do have defective product here's what to do:

1. **CDs that skip:** there are 3 things that will cause a CD to skip: finger prints and smudges, scratches, or dust. These are usually caused by mis-handling of the CD. For fingerprints and smudges, take a non-abrasive cloth (velvet, cotton or eye glass cloth) and carefully clean it from the center hole of the CD to the sides. **Wiping in a circular motion will damage the CD.** As for scratches, there is nothing that can be done to fix 'em, so handle your CDs with care! We cannot give credit for damaged CDs.

2. Returns of defective product are handled the same as other returns, please refer to **RETURNS** section.

IN-STORE PLAY DEMOS

Extra demos must be purchased.

You may request a CD demo for any title the *first time you order 3 or more copies*. - **We are charged for some demos**, in which case we will pass that cost along to you. If you purchase a demo from us it is your property and cannot be returned for credit.

Demos are tools to help you promote and sell the music you have in stock. If you don't have the product in stock to sell, then please don't play the demo until you re-order/re-stock. ***Playing music not available for sale could cause your store serious problems from agents of the publishing industry.*** Please refer to the "Notice Regarding Licensing to Play and Sell Music".
